

Community mutual aid with a sell-only token.

MAVRIC is earned by donation, released over 10 months, and sold back through a public AMM. Buying MAVRIC on our DEX stays blocked until treasury holds $\geq 5,000$ MAVRIC and admin lists / opens buy.

10,000 fixed supply

BNB Smart Chain

Min \$10 USDT

Not an investment product

AGENDA

What we walk through

01

Vision

Why contribution, not a public buy book.

02

Four boosters + five AirDrops

Lifetime engines, then Passive, inviter, matching, rank, free — rules and worked numbers.

03

Max credit

What the protocol can credit. What the 3x cap stops. Exit haircut.

04

Tokenomics

10,000 cap, two-jar AMM, buy blocked.

05

Pipes, not a target

Live demand and supply. Scenarios, not a promised price.

06

Live rules

Sell rails, vesting calendar, what the app already runs.

VISION

Tokens follow contribution, not a shopping cart.

A small utility token communities can earn and exit through a transparent pool — without turning MAVRIC into a chip anyone can buy and dump.

In scope

USDT donations · scheduled AirDrops · community rewards · sell-only AMM · fees · live sell caps, auto-split, and 5-15% burn.

Out of scope

Guaranteed price or profit · public buy before treasury $\geq 5,000$ MAVRIC and admin listing · minting above 10,000 · using treasury to paint the chart.

PRODUCT

Five steps. One direction.

01

Connect

Any Web3 or DEX wallet on BNB Chain.

02

Donate

\$10+ USDT. 5% charity, 5% platform, 90% to the pool.

03

Receive slowly

Default 20% of the 90% each month, for 10 months (2x cap). Passive Airdrop Booster / Renewal Passive Airdrop Booster: 25% x 8 after unlock.

04

Community extras

Inviter, matching, rank — 50% USDT + 50% MAVRIC.

05

Exit

Sell MAVRIC to USDT. Burn 5-15% by impact. 10% daily sell cap. Buy stays closed until treasury holds $\geq 5,000$ MAVRIC and admin lists / opens buy.

LIFETIME ENGINES

Four boosters. Same rules as the app.

7% / 10%

Inviter Booster

Standard 7% of GROSS. 10% for life if you donate \$100+ and refer 5 x \$100 in 10 days. Immediate Community Vault 50/50.

5 x \$1k

Passive Airdrop Booster

30 days from first donate: 5 directs x \$1,000 (\$5,000). Lifetime. Then each renewal 25% x 8. First 20% x 10 is not converted mid-contract.

25% x 8

Renewal Passive Airdrop Booster

After first 20% x 10 completes, renew same or more. Each renewal 25% x 8. Repeatable for life. Floor never falls.

3x -> 5x

Capping Booster

\$5,000 personal donation lifts Community Vault cap from 3x to 5x for life. Free AirDrop stays uncapped.

Once unlocked, each booster stays in the lifetime engine. Community/Free claims 85/7.5/7.5. Donate stays 5% charity + 5% platform.

AIRDROP SUITE

Five AirDrops. Every one is live.

01

Passive

Your donation. Default 20%/month x 10 months on 90% effective (2x cap). Passive Airdrop Booster / Renewal Passive Airdrop Booster: 25% x 8 after unlock.

02

Inviter

7% or 10% booster of a direct's GROSS donation. Immediate USDT + MAVRIC in Community Vault.

03

Matching

Up to 50% of team monthly AirDrop. 20 levels. L1 = directs only.

04

Rank

Spark to Ruler (Genesis). One rank % only. Not stacked.

05

Free

\$20 credit / direct. Claim \$5 per each \$100 they donate.

Passive is separate. Inviter + matching + rank share one Community Vault. Default 3x cap; Capping Booster \$5,000 personal -> 5x lifetime. Free is its own vault. Community/Free claims 85/7.5/7.5. Donate stays 5% charity + 5% platform.

AIRDROP 01 · PASSIVE

Your donation funds a 10-month MAVRIC drip.

RULE	DETAIL
Who	Only the person who donated
Base	90% effective USDT after 5% charity + 5% platform
Rate	20% of effective, every month, for 10 months (2x cap)
Clock	Accrues hourly. Claimable monthly
Max value	200% of effective = 180% of gross (not a cash guarantee)

\$10 \$9 effective · \$1.80/mo · \$18 over 10 mo	\$100 \$90 effective · \$18/mo · \$180 over 10 mo	\$1,000 \$900 effective · \$180/mo · \$1,800 over 10 mo	\$10,000 \$9,000 effective · \$1,800/mo · \$18,000 over 10 mo
---	--	--	--

AIRDROP 02 · INVITER

Paid when someone you invited donates.

Rules

7% of each direct's GROSS donation (not the 90%). 10% for life if you donate \$100+ and refer 5 members who each donate \$100+ within 10 days. Lands in Community Vault immediately as 50% USDT + 50% MAVRIC. Claim both legs at once. Community default 3x; Capping Booster \$5,000 personal -> 5x lifetime.

Worked numbers

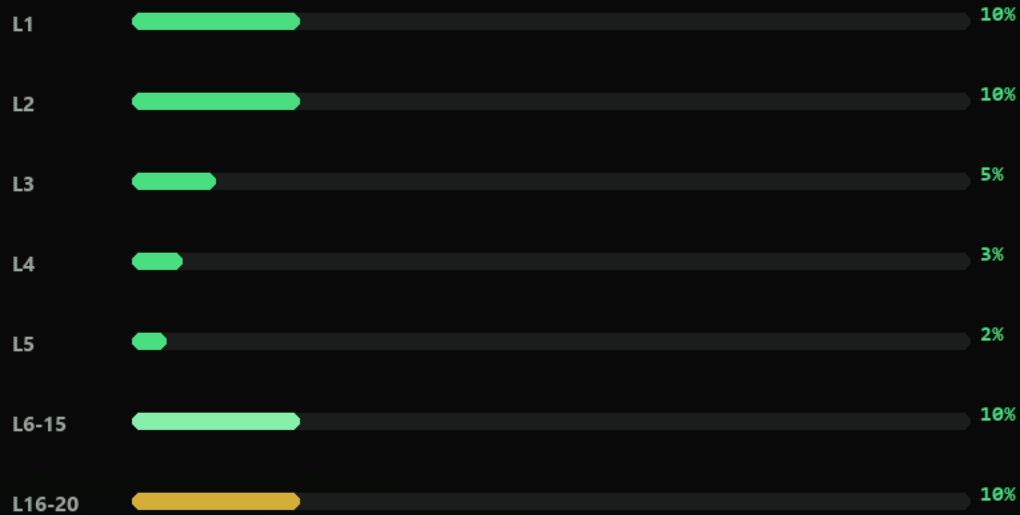

A direct donates \$200. You receive \$14 (7%) or \$20 (10%). Ten directs at \$1,000 = \$7,000-\$10,000 inviter credit — but a \$1,000 personal donation still caps Community at \$3,000.

Hard ceiling

Inviter + matching + rank share one 3x cap vs your personal donation. Extra pending stays unpayable until you donate more.

AIRDROP 03 · MATCHING

Up to 50% of team monthly AirDrop — once a month.

How the dollar is built

Team monthly AirDrop = team donations x 90% x 20%. Matching = that x level %. Refer 1 x \$100+ active contributor to open each 4 levels; 5 contributors open all 20. L1 is directs only. Example: \$100,000 team donations -> \$18,000 team monthly AirDrop -> 50% = \$9,000 that month, still inside 3x.

AIRDROP 04 · RANK

One rank pays. Never eleven stacked.

RANK	%	PERSONAL	TEAM / LEGS
Spark	3%	\$100	\$5k · 60/40
Booster	5%	\$250	\$15k · 60/40
Guardian	10%	\$500	\$50k · 60/40
Elite	15%	\$1,000	\$100k · 60/40
Nova	20%	\$2,000	\$400k · 60/40
Apex	25%	\$3,000	\$1M · 60/40
Scout	30%	\$4,000	\$4M · 60/40
Legend	35%	\$5,000	\$10M · 60/40
Genesis	40%	\$6,000	\$20M · 60/40
Legacy	45%	\$8,000	\$40M · 60/40
Ruler	50%	\$10,000	\$100M · 60/40

AIRDROP 05 · FREE VAULT

\$20 per invite. Unlock \$5 per \$100 they donate.

\$0

Invite only

They never donate — credit sits, \$0 claimable.

\$5

They donate \$100

\$5 of their \$20 credit unlocks.

\$20

They donate \$400+

That person's Free vault is finished. Not 3x capped.

MAXIMUM PROTOCOL CREDIT

What a member can be credited — not a cash payout.

PERSONAL DONATION	PASSIVE 10 MO	COMMUNITY 3X	STACK BEFORE FREE
\$100	\$180	\$300	\$480
\$1,000	\$1,800	\$3,000	\$4,800
\$5,000	\$9,000	\$15,000	\$24,000
\$10,000	\$18,000	\$30,000	\$48,000

Exit haircut

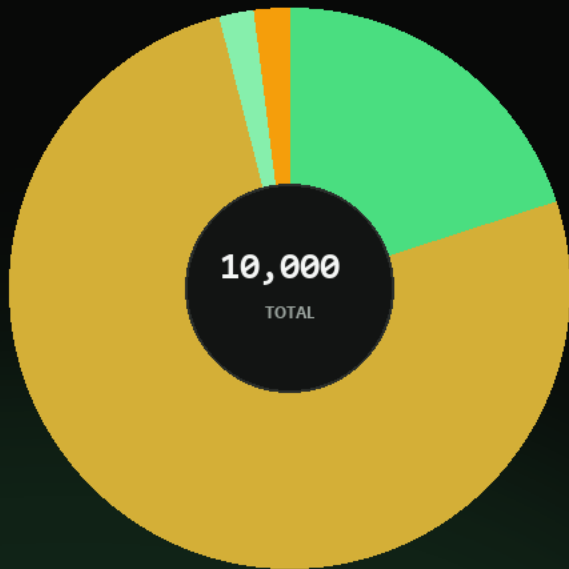

Every MAVRIC sell (Claim to DEX or later from wallet) is 85/7.5/7.5. Community/Free USDT claims 85/7.5/7.5. Donate stays 5/5. Vault 10% daily cap; wallet sells skip it.

Ceilings, not a forecast

Assume claims happen, the cap is not full, and the AMM still has USDT. Donation is not an investment return.

TOKENOMICS

10,000 MAVRIC. That is the entire pie.

- AMM at launch 2,000 · 20%
- Treasury — not circulating 7,600 · 76%
- Team — 6-month cliff 200 · 2%
- Marketing — same vest as team 200 · 2%

Team + marketing: +10 each at month 6, then +10 each every 3 months, last month 63.

LIQUIDITY

Two jars. $\text{MAVRIC} \times \text{USDT} = k$

MAVRIC jar

starts 2,000

X

USDT jar

starts 1,000

Donate: USDT in, MAVRIC out — price typically rises. Sell: MAVRIC in, USDT out — price typically falls. Burn 5-15% by impact. Remainder stays circulating. Never Treasury. Launch $k = 1,000,000$. Listing \$0.25.

HARD RULE

Sell is open. Buy waits on listing.

Allowed

Acquire MAVRIC by donating, Claim AirDrops. Sell MAVRIC to USDT on our AMM. 85% of USDT to the wallet, 7.5% platform, 7.5% charity — same for Claim to DEX or later from wallet.

Blocked until listing

USDT to MAVRIC stays closed until treasury holds $\geq 5,000$ MAVRIC and admin lists / opens buy. Then in-app buy is an AMM swap, not a Passive package.

LIVE RULES

What the app already runs

- 01 Donate, five AirDrops, matching, ranks, sell-only DEX, wallet connect.
- 02 10% daily sell cap per vault · auto-split · 5-15% burn by impact.
- 03 Team + marketing: locked 6 months, then +10 each, then +10 each every 3 months through month 63.
- 04 Donate to join. Receive slowly. Sell if you need to. Never buy on our market.

Read this first.

MAVRIC is a community donation utility on BNB Smart Chain. It is not an investment, security, or profit scheme. Digital assets can lose value. Fees, burns, and AMM math change the USDT received if you sell.
